
CONTENTS

Part 1	7
<i>Chapter 1</i>	9
Introduction and outline of the thesis	
Part 2	37
<i>Chapter 2</i>	39
Prospective analysis of complications of Tension-free Vaginal Tape (TVT) from The Netherlands TVT Study	
<i>Chapter 3</i>	57
What determines a successful TVT? A prospective multi centre cohort study, results from the Netherlands TVT database	
<i>Chapter 4</i>	75
Quality of life before and after TVT, a prospective multi centre cohort study, results from the Netherlands TVT database	
<i>Chapter 5</i>	87
The effectiveness of Tension-free Vaginal Tape (TVT) and quality of life measured in women with previous urogynecological surgery: Analysis from The Netherlands TVT database	
<i>Chapter 6</i>	103
Urge incontinence and other forms of irritative bladder symptoms after TVT. A prospective multicenter, 3 year follow-up study with reference to quality of life	
<i>Chapter 7</i>	121
Result of the Tension-free Vaginal Tape (TVT) in patients with concomitant pelvic surgery, a two year follow-up study, analysis from the Netherlands TVT database	
<i>Chapter 8</i>	135
The prevalence of voiding difficulty after TVT, its impact on quality of life and related risk factors	

Part 3	155
<i>Chapter 9</i>	157
Summary, conclusions, general discussion & recommendations for future research	
<i>Chapter 10</i>	173
Nederlandse samenvatting	
Part 4	179
<i>Appendices</i>	181
A. Abbreviations	183
B. Questionnaires	185
C. Acknowledgements - Dankwoord	187
D. List of co-authors	191
E. Curriculum vitae	193
F. List of publications	195
G. Grants	199
