Prince Leopold Institute of Tropical Medicine
Nationalestraat 155, B-2000 Antwerp
Belgium

In loving memory of my father

Alh. Im. Yankuba B.A. Faburay (1926 to 2005)

This thesis is dedicated with love and respect to my parents who foresaw the wisdom of schooling me; to my family, dear wife Chilel, children Fatou, Lamin and Yankuba Faburay who endured difficult times of my long absence.

In God We Trust

The research described in this thesis was supported by the European Development Fund, Service Contract No. REG/6061/006, Rothamsted International (UK), The International Foundation for Science (Sweden) in partnership with COMSTECH, Epigenevac project under contract number no. INCO-CT-2005-003713, ICTTD-2 concerted action project under contract no. ICA4T-2000-30006, through the INCO-DEV program of the European Commission, The Integrated Consortium on Ticks and Tick-borne Diseases (ICTTD-3) financed by the International Cooperation programme of the European Union through Coordination Action Project no. 51 0561, the Utrecht Scholarship Programme (Utrecht University) and The Rural Finance and Community Initiatives Project (World Bank) of The Republic of The Gambia.
