Contents

Chapter 1 General Introduction 1
Chapter 2 Effects of follicular cells and FSH on the resumption of meiosis in horse oocytes matured *in vitro* 21
Chapter 3 Organisation of the cytoskeleton during *in vitro* maturation of horse oocytes 47
Chapter 4 Evaluation of sperm-oocyte interaction during *in vitro* fertilization in the horse 67
Chapter 5 Cytoskeleton and chromatin reorganization in horse oocytes following intracytoplasmic sperm injection: patterns associated with normal and defective fertilization 93
Chapter 6 Effects of in vitro production of horse embryo morphology, cytoskeletal characteristics and blastocyst capsule formation 119
Chapter 7 Effect of the number of passages of fetal and adult fibroblasts on nuclear remodeling and first embryonic division in reconstructed horse oocytes after nuclear transfer 153
Chapter 8 Summarizing discussion 169

Samenvatting 179
