

## Erratum

Meeus, W., van de Schoot, R., Keijsers, L., Schwartz, S. J., Branje, S. (2010) On the Progression and Stability of Adolescent Identity Formation: A Five-Wave Longitudinal Study in Early-to-Middle and Middle-to-Late Adolescence *Child Development*, 81, 1565–1581.

The BFs as reported for RQ 1 in Table 2 (p. 1574) should have been  $BF_{2,1} = 15,514$  and  $BF_{2,unc} = 21.41$ . The PMP values of M1, M2, and M3 should have been:  $< .001$ ,  $.95$  and  $.05$ , respectively. The conclusions from the analysis do not change because of the corrected results.
