The authors regret that in this Note a mistake was published in the Experimental section. The description of the UHPLC-HRMS column was wrong and should have read: “(i) A YMC-Triart Diol-HILIC column (250 × 2.0 mm, 1.9 μm particles, pore size 12 nm; YMC Co., Ltd, Kyoto, Japan) was used”.

The authors would like to apologise for any inconvenience caused.
