(14) In the legend of Figure 1 there is a space between de u M, the correct way is uM. The same mistake appears in page 5 paragraph 1 and 5 (3 times), page 7 paragraph 6 (all notations are in regard to the Final PDF)

(15) In the legend of figure 4 item d, CCD 10,595 K should be 10595k

(16) In the legend of figure 4, there is a line skip between the item a) and b) that should not exist.

(17) In legend figure 5, it says 52 h post fertilization, it should be 52 h post fertilization. The same error appears in the method section for Fish Embryo Toxicity

(18) In Method section MTT, it says u L instead of uL. This appears 3 times in the MTT sections, one time in the flow citometry section, one time in the FET section, one time in the fluorescence fish embryo section, one time in the fluorescence blood smear.

(19) In the page 7, below the legend of the figure 4 there are the words “Fig”, “4c.” and “tested” that are lost in the page.
