KEYWORDS

ossification, genetics, ectopic calcification, diffuse idiopathic skeletal hyperostosis, ossification of posterior longitudinal ligament

A Corrigendum on

Evidence for a genetic contribution to the ossification of spinal ligaments in ossification of posterior longitudinal ligament and diffuse idiopathic skeletal hyperostosis: a narrative review

by Couto AR, Parreira B, Power DM, Pinheiro L, Madruga Dias J, Novofastovski I, Eshed I, Sarzi-Puttini P, Pappone N, Atzeni F, Verlaan J-J, Kuperus J, Bieber A, Ambrosino P, Kiefer D, Khan MA, Mader R, Baraliakos X and Bruges-Armas J (2022). *Front. Genet.* 13:987867. doi: 10.3389/fgene.2022.987867

In the published article, there was an error in **Affiliation** number 2. Instead of “CHRC Campus Nova Medical School, Lisboa, Portugal”, it should be “Comprehensive Health Research Centre, Hospital de Santo Espírito da Ilha Terceira, Lisbon, Portugal.”

In addition, there was an error in the **Funding** statement. The correct **Funding** statement is “The present publication was funded by Fundação Ciência e Tecnologia, IP national support through CHRC (UIDP/04923/2020).”

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
