## Contents

**CHAPTER 1** 9  
Introduction and summary of investigation

**CHAPTER 2** 25  
Late Pliocene climate variability on Milankovitch to millennial time scales: A high-resolution study of MIS100 from the Mediterranean  

**CHAPTER 3** 51  
High-frequency climate linkages between the North Atlantic and the Mediterranean during Marine Oxygen Isotope Stage 100 (MIS100)  

**CHAPTER 4** 69  
Redox conditions and dust deposition at San Nicola during MIS100: results from trace element and grain size analysis

**CHAPTER 5** 87  
Cycle geometry of MIS100-96 in relation to orbital forcing  
in cooperation with L.J. Lourens, R. Bintanja and R.S.W. van de Wal

**CHAPTER 6** 105  
Evaluation of African aridity and North Atlantic Dansgaard-Oeschger cycles during Pliocene MIS101-95
